

REMARKS

Reconsideration of the present application is requested. Claim 14 was said to contain patentable subject matter but was objected to as dependent on rejected claims. Applicants have amended independent claim 1 to incorporate the limitations of claim 14 and its intervening claim 13. Claims 13 and 14 have thus been cancelled. The remaining dependent claims 2, 7 and 8 have been amended to reflect the change of the "at least one nozzle" in claim 1 to "at least two nozzles".

Since claim 1 incorporates the limitations of claim 14 it is believed that this claim is now in condition for allowance, along with the remaining dependent claims 2, 7 and 8. Action toward a Notice of Allowance is therefore requested.

Respectfully submitted,

*/Michael D. Beck*
